

# Fractures

## - A -

- abduction-external rotation fracture
- accessory navicular fracture
- accessory ossicle fracture
- acetabular posterior wall fracture
- acetabular rim fracture
- acute avulsion fracture
- adduction fracture
- agenetic fracture
- AIIS avulsion fracture
- Aitken classification of epiphysial fracture
- Allen open reduction of calcaneal fracture
- alveolar bone fracture
- anatomic neck fracture
- Anderson-Hutchins unstable tibial shaft fracture
- angulated fracture
- ankle mortise fracture
- anterior calcaneal process fracture
- anterior column fracture
- anterolateral compression fracture
- AO classification of ankle fracture
- apophysial fracture
- arch fracture
- articular mass separation fracture
- articular pillar fracture
- Ashhurst-Bromer ankle fracture classification
- Atkin epiphysial fracture
- atlas fracture
- atrophic fracture
- avulsion chip fracture
- avulsion stress fracture
- axial load teardrop fracture

## - B -

- backfire fracture
- Bankart fracture
- Barton fracture
- basal neck fracture
- baseball finger fracture
- basilar femoral neck fracture
- basocervical fracture
- bayonet position of fracture
- beak fracture

- bedroom fracture
- bending fracture
- Bennett basic hand fracture
- Bennett comminuted fracture
- Berndt-Hardy classification of transchondral fracture
- bicolmn fracture
- bicondylar T-shaped fracture
- bicondylar Y-shaped fracture
- bicycle spoke fracture
- bimalleolar ankle fracture
- bipartite fracture
- birth fracture
- blow-in fracture
- blow-out fracture
- bone shaft fracture
- boot-top fracture
- Bosworth fracture
- both-bone fracture
- both-column fracture
- bowing fracture
- boxer's fracture
- Boyd type II fracture
- Broberg-Morrey fracture
- bucket-handle fracture
- buckle fracture
- bumper fracture
- bunk bed fracture
- Burkhalter-Reyes method phalangeal fracture
- burst fracture
- butterfly fracture
- buttonhole fracture

## - C -

- calcaneal avulsion fracture
- calcaneal displaced fracture
- calcaneal type I-III fracture
- calcaneus tongue fracture
- Canale-Kelly talar neck fracture
- capillary fracture
- capitellar fracture
- capitulum fracture
- carpal bone stress fracture
- carpal navicular fracture
- carpal scaphoid bone fracture
- carpometacarpal joint fracture
- cartwheel fracture
- Cedell fracture
- cemental fracture
- central talus fracture
- cephalomedullary nail fracture
- cervical trochanteric displaced fracture
- cervical trochanteric fracture
- chalk-stick fracture
- Chance vertebral fracture
- Chaput fracture
- chauffeur's fracture
- chip fracture

- chisel fracture
- circumferential fracture
- clavicular birth fracture
- clay shoveler's fracture
- cleavage fracture
- closed ankle fracture
- closed indirect fracture
- closed reduction of fracture
- coccyx fracture
- Colles fracture
- collicular fracture
- Coltart fracture
- combined flexion-distraction injury and burst fracture
- combined radial-ulnar-humeral fracture
- comminuted bursting fracture
- comminuted intraarticular fracture
- comminuted teardrop fracture
- complete fracture
- complex fracture
- complicated fracture
- composite fracture
- compound comminuted fracture (CCF)
- compression fracture
- condylar compression fracture
- condylar femoral fracture
- condylar split fracture
- congenital fracture
- contrecoup fracture
- controlled comminuted fracture
- coracoid fracture
- corner fracture
- coronal split fracture
- coronoid process fracture
- cortical fracture
- Cotton ankle fracture
- cough fracture
- crack fracture
- craniofacial dysjunction fracture
- crush fracture
- crushed eggshell fracture
- cuboid fracture
- cuneiform fracture

## **- D -**

- dancer's fracture
- Danis-Weber classification of malleolar fracture
- Darrach-Hughston-Milch fracture
- dashboard fracture
- de Quervain fracture
- Denis Browne sacral fracture classification
- Denis Browne spinal fracture classification
- Denis spinal fracture
- dens fracture
- dentate fracture
- depressed fracture
- derby hat fracture
- Desault fracture

- Descot fracture
- diacondylar fracture
- diametric pelvic fracture
- diaphysial fracture
- diastatic fracture
- dicondylar fracture
- die punch fracture
- direct fracture
- dishpan fracture
- displaced intraarticular fracture
- displaced pilon fracture
- distal femoral epiphysial fracture
- distal humeral fracture
- distal radial fracture
- distraction of fracture
- dogleg fracture
- dome fracture
- dorsal wing fracture
- double fracture
- drill bit fracture
- Dupuytren fracture
- Duverney fracture
- dye-punch fracture
- dyscrasic fracture

## **- E -**

- eggshell fracture
- elbow fracture
- elementary fracture
- elephant-foot fracture
- Ellis technique for Barton fracture
- Ender rod fixation of fracture
- endocrine fracture
- epicondylar avulsion fracture
- epiphysial growth plate fracture
- epiphysial slip fracture
- epiphysial tibial fracture
- Essex-Lopresti fixation of calcaneal fracture
- Essex-Lopresti joint depression fracture
- Essex-Lopresti tongue-type fracture
- explosion fracture
- extraarticular fracture
- extracapsular fracture
- extraoctave fracture

## **- F -**

- fatigue fracture
- femoral intratrochanteric fracture
- femoral neck fracture
- femoral shaft fracture
- femoral supracondylar fracture
- fender fracture
- fibular diaphysial fracture
- fighter's fracture
- first carpometacarpal joint fracture

- fissured fracture
- flake hamate fracture
- Fleck fracture
- flexion teardrop fracture
- flexion-burst fracture
- flexion-compression fracture
- flexion-distraction fracture
- floating arch fracture
- folding fracture
- forearm fracture
- four-part fracture
- fracture bed
- fracture blister
- fracture boot
- fracture box
- fracture bracing
- fracture by contrecoup
- fracture callus
- fracture callus loading
- fracture classification
- fracture decompression
- fracture deformity
- fracture dislocation
- fracture en coin
- fracture en rave
- fracture fever
- fracture fixation
- fracture fixation device
- fracture fragment
- fracture fragment displacement
- fracture fragment distraction
- fracture fragment nonunion
- fracture fragment separation
- fracture frame
- fracture gap
- fracture healing
- Fracture Intervention Trial (FIT)
- fracture line
- fracture line consolidation
- fracture malreduction
- fracture of necessity
- fracture reducing elevator
- fracture reduction
- fracture repair
- fracture site
- fracture site nonunion Norland bone densitometry
- fracture splint
- fracture stabilization
- fracture table
- fracture with scoliosis
- fracture zone
- fragility fracture
- Freiberg fracture
- Frykman radial fracture
- fulcrum fracture

## **- G -**

- Gaenslen fracture
- Galeazzi fracture
- Garden femoral neck fracture
- glenoid rim fracture
- Gosselin fracture
- graft fracture
- greater trochanteric femoral fracture
- greenstick fracture
- grenade thrower's fracture
- gross fracture
- growth plate fracture
- Guérin fracture
- gunshot fracture
- Gustilo tibial fracture
- Gustilo-Anderson open clavicular fracture

## **- H -**

- Hahn-Steinthal fracture
- hairline fracture
- hamate tail fracture
- hangman's fracture
- Hawkins type I talus fracture
- head fracture
- head-splitting humeral fracture
- healed fracture
- heat fracture
- hemicondylar fracture
- Henderson fracture
- Herbert scaphoid bone fracture
- Hermodsson fracture
- hickory-stick fracture
- high-energy fracture
- Hill-Sachs fracture
- hip avulsion fracture
- hockey-stick fracture
- Hoffa fracture
- Holstein-Lewis fracture
- hoop stress fracture
- horizontal fracture
- humeral head-splitting fracture
- humeral physial fracture
- humeral shaft fracture
- humeral supracondylar fracture
- Hutchinson fracture
- hyperextension teardrop fracture
- hyperflexion teardrop fracture

## **- I -**

- ice skater's fracture
- idiopathic fracture
- impacted articular fracture
- impacted valgus fracture

- impaction fracture
- implant fracture
- impression fracture
- incomplete fracture
- indirect fracture
- inflammatory fracture
- infraction fracture
- infratectal transverse fracture
- Ingram-Bachynski hip fracture classification
- insufficiency fracture
- interarticular fracture
- intercondylar femoral fracture
- intercondylar humeral fracture
- intercondylar tibial fracture
- internally fixed fracture
- interperiosteal fracture
- intertrochanteric femoral fracture
- intertrochanteric four-part fracture
- intraarticular calcaneal fracture
- intraarticular proximal tibial fracture
- intracapsular fracture
- intraoperative fracture
- intraperiosteal fracture
- inverted-Y fracture
- ipsilateral femoral neck fracture
- ipsilateral femoral shaft fracture
- irreducible fracture
- ischioacetabular fracture

## **- J -**

- Jefferson cervical burst fracture
- Jeffery radial fracture classification
- joint depression fracture
- Jones fracture
- junctional fracture
- juvenile Tillaux fracture
- juxtaarticular fracture
- juxtacortical fracture
- juxtatectal transverse fracture

## **- K -**

- Kapandji fracture
- Kilfoyle humeral medial condylar fracture classification
- knee fracture
- Kocher fracture
- Kocher-Lorenz fracture
- Köhler fracture

## **- L -**

- laminar fracture
- lap seatbelt fracture
- lateral column calcaneal fracture

- lateral humeral condyle fracture
- lateral malleolus fracture
- lateral mass fracture
- lateral talar process fracture
- lateral tibial plateau fracture
- lateral wedge fracture
- laterally displaced fracture
- Lauge-Hansen ankle fracture classification
- Lauge-Hansen stage II supination-eversion fracture
- Laugier fracture
- Le Fort fibular fracture
- Le Fort II fracture
- Le Fort mandible fracture
- Le Fort-Wagstaffe fracture
- lead pipe fracture
- lesser trochanter fracture
- linear fracture
- Lisfranc fracture
- Lloyd-Roberts fracture
- local compression fracture
- local decompression fracture
- long bone fracture
- long oblique fracture
- longitudinal fracture
- loose fracture
- Looser zone in insufficiency fracture
- lorry driver's fracture
- low lumbar spine fracture
- low T humerus fracture
- low-energy fracture
- lumbar spine burst fracture
- lumbosacral junction fracture
- lunate fracture

## **- M -**

- Maisonneuve fibular fracture
- malar fracture
- Malgaigne pelvic fracture
- malleolar chip fracture
- mallet fracture
- malunited calcaneus fracture
- malunited forearm fracture
- malunited radial fracture
- mandibular fracture
- march fracture
- marginal fracture
- Marmor-Lynn fracture
- Mason fracture
- Mathews olecranon fracture classification
- maxillary fracture
- medial column calcaneal fracture
- medial epicondyle humeral fracture
- medial malleolar fracture
- metacarpal neck fracture
- metaphyseal tibial fracture
- metatarsal fracture
- Meyers-McKeever tibial fracture classification

- middle tibial shaft fracture
- midfacial fracture
- midfoot fracture
- midnight fracture
- midshaft fracture
- minimally displaced fracture
- mini-pilon fracture
- missed fracture
- monomalleolar ankle fracture
- Monteggia forearm fracture
- Montercaux fracture
- Moore fracture
- Mouchet fracture
- multangular ridge fracture
- multilevel fracture
- multipartite fracture
- multiple fracture
- multiray fracture

## **- N -**

- navicular dorsal lip fracture
- navicular tuberosity fracture
- naviculocapitate fracture
- neck fracture
- Neer-Horowitz classification of humeral fracture
- neoplastic fracture
- neurogenic fracture
- neuropathic fracture
- neurotrophic fracture
- Newman radial fracture
- nightstick fracture
- night-walker fracture
- nonarticular distal radial fracture
- noncontiguous fracture
- nondisplaced fracture
- nonphysial fracture
- nonrotational burst fracture
- nonunion horse-hoof fracture
- nonunion torsion wedge fracture
- nonunited fracture
- nutcracker fracture

## **- O -**

- oblique fracture
- obturator avulsion fracture
- occipital condyle fracture
- occult fracture
- odontoid condyle fracture
- old fracture
- olecranon tip fracture
- one-part fracture
- open reduction of fracture
- open-book fracture
- open-break fracture
- os trigonum fracture

- ossification-associated fracture
- osteochondral slice fracture
- Ovdia-Beals classification of tibial plafond fracture

## **- P -**

- Pais fracture
- Palmer primary fracture
- Papavasiliou olecranon fracture classification
- paratrooper fracture
- parry fracture
- pars interarticularis fracture
- patellar sleeve fracture
- pathologic fracture
- Pauwels fracture
- pedicle fracture
- pelvic avulsion fracture
- pelvic rim fracture
- pelvic ring fracture
- pelvic straddle fracture
- penetrating fracture
- perforating fracture
- periarticular fracture
- periprosthetic fracture
- peritrochanteric fracture
- PER-IV fracture
- pertrochanteric fracture
- phalangeal diaphysial fracture
- physal plate fracture
- physis fracture
- Piedmont fracture
- pillow fracture
- pilon fracture
- ping-pong fracture
- plafond fracture
- plastic bowing fracture
- plateau fracture
- pond fracture
- Posada fracture
- posterior arch fracture
- posterior column fracture
- posterior element fracture
- posterior process fracture
- posterior talar process fracture
- posterior wall fracture
- postirradiation fracture
- postmortem fracture
- postoperative fracture
- Pott ankle fracture
- pressure fracture
- Prevent Recurrence of Osteoporotic Fractures (PROOF)
- profundus artery fracture
- pronation-abduction fracture
- pronation-eversion fracture
- pronation-eversion/external rotation fracture
- proximal end tibia fracture
- proximal femoral fracture
- proximal humeral fracture

- proximal tibial metaphyseal fracture
- pseudo-Jones fracture
- puncture fracture
- pyramidal fracture

## **- Q -**

- Quervain fracture

## **- R -**

- radial head fracture
- radial neck fracture
- radial styloid fracture
- reduction of fracture
- resecting fracture
- retrodisplaced fracture
- reverse Barton fracture
- reverse Colles fracture
- reverse Monteggia fracture
- reverse obliquity fracture
- rib fracture
- ring fracture
- Rolando fracture
- rotational burst fracture
- Ruedi fracture
- Ruedi-Allgower tibial plafond fracture

## **- S -**

- sacral fracture
- sacroiliac fracture
- Salter fracture
- Salter-Harris fracture (type I-VI)
- sandbagging long bone fracture
- Sanders fracture
- Sangeorzan navicular fracture
- scaphoid fracture
- scapular fracture
- secondary fracture
- segmental fracture
- Segond tibial avulsion fracture
- senile subcapital fracture
- sentinel fracture
- SER-IV fracture
- sesamoid fracture
- shaft fracture
- shear fracture
- Shepherd fracture
- short oblique fracture
- sideswipe elbow fracture
- silver-fork fracture
- simple fracture
- single-column fracture
- skier's fracture

- Skillern fracture
- sleeve fracture
- small fracture
- Smith ankle fracture
- Sneppen talar fracture
- snowboarder's fracture
- spinal fracture
- spinous process fracture
- spiral oblique fracture
- splintered fracture
- split fracture
- split-heel fracture
- spontaneous fracture
- sprain fracture
- Springer fracture
- sprinter's fracture
- stable burst fracture
- stairstep fracture
- Steida fracture
- stellate fracture
- step-off of fracture
- sternum fracture
- Stieda fracture
- straddle fracture
- strain fracture
- stress fracture
- styloid fracture
- subcapital fracture
- subcutaneous fracture
- subperiosteal fracture
- subtrochanteric femoral fracture
- supination-adduction fracture
- supination-eversion fracture
- supination-external rotation IV fracture
- supracondylar humeral fracture
- supracondylar Y-shaped fracture
- suprasyndesmotoc fracture
- supratpectal transverse fracture
- surgical neck fracture
- sustentaculum tali fracture
- synchondritic fracture

## **- T -**

- T condylar fracture
- T fracture
- talar avulsion fracture
- talar neck fracture
- talar osteochondral fracture
- talus body fracture
- tarsal bone fracture
- teacup fracture
- teardrop fracture
- teardrop-shaped flexion-compression fracture
- temporal bone fracture
- tennis fracture
- tension fracture
- thalamic fracture

- thoracic spine fracture
- thoracolumbar burst fracture
- three-part fracture
- through-and-through fracture
- thrower's fracture
- Thurston-Holland fracture
- tibiofibular fracture
- Tillaux fracture
- Tillaux-Chaput fracture
- Tillaux-Kleiger fracture
- toddler's fracture
- tongue fracture
- Torg fracture
- torsional fracture
- torus fracture
- total talus fracture
- traction fracture
- transcapitate fracture
- transcervical femoral fracture
- tranochondral fracture
- trancondylar fracture
- transepiphyseal fracture
- transhamate fracture
- transiliac fracture
- transsacral fracture
- transscaphoid dislocation fracture
- transtriquetral fracture
- transverse process fracture
- trapezium fracture
- trimalleolar ankle fracture
- triplane tibial fracture
- triquetral fracture
- trophic fracture
- T-shaped fracture
- tuberosity avulsion fracture
- tuberosity fracture
- tuft fracture
- two-part fracture
- type I, II, III, IIIA, IIIB, IIIC open fracture

## **- U -**

- ulnar styloid fracture
- unciform fracture
- uncinat process fracture
- undisplaced fracture
- unicondylar fracture
- unstable fracture
- ununited fracture

## **- V -**

- vertebral body fracture
- vertebral plana fracture
- vertebral stable burst fracture
- vertebral wedge compression fracture
- vertical fracture

- vertical shear fracture
- volar shear fracture
- Volkmann fracture
- Vostal classification of radial fracture
- V-shaped fracture

## **- W -**

- wagon wheel fracture
- Wagstaffe fracture
- Wagstaffe-Le Fort fracture
- waist fracture
- Walther fracture
- Watson-Jones navicular fracture
- Weber B, C fracture
- wedge compression fracture
- wedge flexion-compression fracture
- wedge-shaped uncomminuted tibial plateau fracture
- willow fracture
- Wilson fracture
- Winquist-Hansen classification of femoral fracture

## **- Y -**

- Y fracture
- Y-T fracture

## **- Z -**

- Zickel fracture
- ZMC fracture
